Floor Generator 3ds Max 18l

Hello, I want to make a floor generator, but I have this problem. An error comes up when I try to add the floor in blender. The error says: Unsupported options: "Unknown Node: Floor Generator: bpy.ops.mesh.primitive_cylinder_add(segments=3, view_align=False, enter=True, enter_viewset=False, enter_location='XY', enter_location_rot=False, enter_rot=False, enter_scale=False, enter_scale_rot=False, enter_scl=True, enter_scl_rot=True, enter_rot_axis=False, enter_rot_axis=False, enter_scale_level=False, enter_translate_location=True, enter_translate_rot=True, enter_translate_axis=True, enter_translate_level=False, enter_location_anchor=True, enter_rot_anchor=True, enter_translate_anchor=True, enter_scale_anchor=False, enter_rot_anchor=True, enter_translate_anchor=True, enter_rot=True, enter_scale=True, enter_scl=True, enter_translate_location=False, enter_scale_location=True, enter_rot_axis=False, enter_translate_level=False, enter_translate_location=False, enter_translate_rot=False, enter_translate_scl=False, enter_rot_axis=False, enter_rot_anchor=True, enter_rot_location=False, enter_rot_scl=False, enter_rot_anchor=True, enter_rot_location=True, enter_rot_scale=False, enter_rot_anchor=True, enter_translate_anchor=False, enter_translate_location=False, enter_translate_rot=False, enter_translate_scl=True, enter_rot_axis=False, enter_rot_scale=True, enter_translate_anchor=False, enter_rot_location=False, enter_rot_scale=True, enter_translate_anchor=True, enter_translate_rot=False, enter_translate_scl=True, enter_rot_location=True, enter_rot f30f4ceada
