I was at this URL for a while and I created an account, but I was never redirected to the Mac or Windows version I wanted. I just used the link and it worked fine. What's the difference between the Mac & Windows versions of Incredimail 5. The Mac version has an option to install directly into your Mac, so you only need to have an internet connection when you install it. And it's just a basic email program for free. The Windows version has several different features, like templates, stylish
